EXPERIENCE

Leadership Team Intern

Women in Business and Stem CSUF | Fullerton, CA | December 2024 - Present

- Leadership team empowers and supports the women at CSUF in their pursuit of excellence in business and STEM fields.
- Assisting with leadership initiatives, strategy planning, and club-wide decision-making
- Observing leadership team to identify and analyze an area of growth, develop a solution, implement a plan, and measure success

Team Lead + Trainer

Panera Bread | Irvine, CA | April 2021 - December 2023

- Worked as a Team Lead, Trainer, Cashier, Barista, and Diner, utilizing my excellent customer service skills and leadership skills
- Trained new hires and ran full shifts.
- Learned how to work under stressful situations and how to get through them as a team.
- Became the top earner in Change For Children Charity within 2 months and kept the top spot my entire time with the company.
- Favorite takeaway from this job is the ability to build meaningful relationships with customers and coworkers.

Director of Diversity and Inclusion

Alpha Delta Pi Chapter | Fullerton, CA | January 2023 - December 2023

- Played a key leadership role in fostering an inclusive environment by developing and implementing strategic initiatives such as workshops, weekly informative challenges, and more.
- Worked on ensuring equal opportunities for all members, while cultivating a stronger and more innovative community, resulting in positive outcomes and a culture of belonging.

Club Founder and President

Minority Owned OC | Irvine, CA | September 2020 - June 2022

- Founded and served as President of Minority Owned OC, a transformative club dedicated to amplifying the voices of underrepresented communities and driving the growth of minority-owned local businesses.
- Actively raised awareness about the services offered by local minority-owned businesses and encouraging their utilization
- Club played a pivotal role in providing vital assistance and support to underrepresented communities during the challenging times of the COVID-19 pandemic
- Oversaw/led board members that assisted in running this organization, held professional interviews, created connections with local business, created club website

SOFTWARE PROJECTS

Leftover Food Tracker (In progress) | C++, Linux

Copy of project provided upon request

- Using object-oriented programming to design a web-based Leftover Tracker that simplifies data entry and automatically generates reports, providing an efficient and user-friendly solution for individuals, households, and businesses to track, manage, and minimize leftovers
